

AAQUIB SHAIKH

MERN STACK DEVELOPER

Mumbai | 9028264605 | aaquibshaikh64@gmail.com | [LinkedIn](#) | [GitHub](#)

SUMMARY

MERN Stack Developer with hands-on internship experience in full-stack web application development, building RESTful APIs, and deploying scalable solutions. Eager to contribute to real-world projects and grow as a developer.

SKILLS

- **Languages** JavaScript, HTML, CSS, C Programming, SQL
- **Frontend Technologies** React, Tailwind CSS, Bootstrap, Redux Toolkit
- **Backend Technologies** Node.js, RESTful APIs, Express, MongoDB
- **Tools** Git, Postman, MySQL, Oracle, Windows

WORK EXPERIENCE

Software Developer Intern - EasyPans - Mumbai

Dec 25 - Present

- Working on a production recipe-maker web application using React and JavaScript
- Integrating frontend components with REST APIs and debugging issues
- Following clean code practices and Git-based version control

Web Developer Intern - Kothari Tech - Mumbai

Jun 25 - Nov 25

- Developed web modules using HTML, CSS, and JavaScript for two client projects
- Ensured cross-browser compatibility, modular code structure, and UI consistency
- Collaborated with team members using GitLab and Agile-style workflows

PROJECTS

TrendiFy

 [Live App](#) |  [Frontend Repo](#) |  [Backend Repo](#)

- Built scalable REST APIs using Express.js with OAuth-based access control
- Optimized database queries, pagination, and application performance
- Deployed full-stack application and debugged frontend/backend issues

PocketPilot

 [Live App](#) |  [Frontend Repo](#) |  [Backend Repo](#)

- Developed MERN-based expense tracking application with JWT authentication
- Designed database schema and implemented secure CRUD operations
- Deployed frontend on Netlify and backend on Render
